Medical Drop Caps

The result of a project where I had to create six drop caps. Since I had a lot of freedom with this project, I decided to create letters that implemented familiar medical supplies with bright colors and just a touch of eeriness.

About & Contact

I'm a video game and 90s cartoon-lover inspired by bold colors and electronic music. I admire the kind of 2000s aesthetic that makes my sane friends cry.

I currently major in Graphic Design at Queens College, with a focus on illustration and animation. I also minor in Business and Liberal Arts, and have a full scholarship from Macaulay Honors College.

In my spare time I like to thrift shop, mess with my dog, and watch YouTube videos about things I'll never need to know.
